SKILLS

PROGRAMMING LANGUAGES	Python, Java, C/C++, PHP, HTML/CSS
LIBRARIES/FRAMEWORKS	Bootstrap, React, Selenium
TOOLS / PLATFORMS	Linux, VS Code, Git, PyCharm
DATABASES	MySQL

PROJECTS / OPEN-SOURCE

README GENERATOR | REACT, BOOTSTRAP, CSS <https://github.com/Somanyu/readme-generator>

With this simple markdown editor users can type and see the live preview of their rendered markdown, implemented with React.js and Bootstrap. This React Component provides Markdown editing with syntax highlighting support.

PHP CHAT APPLICATION | HTML, CSS, PHP <https://github.com/Somanyu/chatapp>

This is a simple web chat application where multiple users can join and chat among other users. For the implementation this application I have to use the CSS for styling and HTML part to render and PHP for taking the user message and showing it to the users.

ONLINE SHOE STORE | JAVASCRIPT, REACT, BOOTSTRAP, CSS, HTML

<https://github.com/Somanyu/multipage-navigation>

This project is based on the implementation of tab navigation in React and jQuery to view a product on swipe. The aim for the project was designing a website with Bootstrap that looks minimalist and modern.
